PROFILE

Backend developer specializing in **Node.js** and **NestJS**, with experience building secure, scalable, and high-performance APIs. I have worked with **PostgreSQL**, **Redis**, **Docker**, and JWT authentication, as well as integrating online payments, file version control, and automated document generation. My skills are complemented by knowledge of Python (Django and FastAPI) and modern frontend fundamentals, allowing me to collaborate effectively in full-stack teams. I am characterized by my technological curiosity, continuous learning, and rapid adaptation to new tools. I seek to contribute to challenging projects with real impact.

SKILLS

- **Programming Languages:** Node.js, JavaScript, Typescript, Python
- **Frameworks:** NestJS
- **Tools:** Git, GitHub, Docker
- **Databases:** MySQL, PostgreSQL, Redis
- **Idiomas:** Español (nativo), Ingles (A2/B1)
- **Other:** Linux, JWT, Grafana

PROFESSIONAL EXPERIENCE

Data Scientist

08/2025 – Present | San Juan, Argentina
